

AMINUR RAHMAN

Full-Stack Web Developer (MERN)

Satkhira, Bangladesh | +8801327694078 | aminurrahman9793@gmail.com
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Career Objective

Full-Stack Web Developer specializing in the MERN stack with hands-on experience building scalable web applications. Expertise in React.js, Next.js, and Node.js with a proven ability to implement secure authentication, payment gateways, and admin dashboards.

Technical Skills

Frontend:	React.js, Next.js (App Router), HTML5, JavaScript (ES6+), TanStack Query, Framer Motion
Backend:	Node.js, Express.js, REST APIs, JWT Authentication
Database:	MongoDB, Mongoose
Auth & Payments:	Firebase Auth, NextAuth.js, Stripe API
Styling/UI:	Tailwind CSS, DaisyUI, Responsive Design
Tools & DevOps:	Git, GitHub, Vercel, Netlify, VS Code

Full-Stack Projects

Digital Life Lessons | MERN, Stripe, Firebase

[Live](#) | [Client](#) | [Server](#)

Platform to create, organize, and share personal growth lessons with progress tracking and community libraries.

- Engineered a full-stack SaaS platform using the MERN stack, featuring personalized progress tracking and a community wisdom library for seamless content sharing.
- Developed robust Node.js/Express REST APIs with integrated Firebase Authentication and role-based access control (RBAC) to secure user data.
- Architected a secure payment ecosystem using Stripe API to handle automated subscription workflows and a comprehensive admin analytics dashboard.

PlateShare | React, Node.js, MongoDB, Firebase

[Live](#) | [Client](#) | [Server](#)

Community food donation hub connecting surplus providers with seekers to reduce waste and improve food security.

- Built a real-time food-sharing application using React and MongoDB, enabling efficient coordination between food donors and seekers to reduce waste.
- Optimized backend performance by designing scalable NoSQL schemas and RESTful endpoints for managing complex donation statuses and user requests.
- Implemented secure multi-channel login via Firebase and utilized modern CSS frameworks to ensure mobile-first responsiveness across all devices.

Hero Kidz | Next.js, MongoDB, NextAuth

[Live](#) | [Source](#)

Full-stack e-commerce solution for children's toys featuring secure checkout, persistent cart, and admin inventory controls.

- Architected a high-performance e-commerce store using Next.js App Router, featuring server-side rendering (SSR) and a persistent shopping cart experience.
- Integrated NextAuth for secure identity management and developed automated NodeMailer services for instant order confirmations and notifications.
- Engineered a streamlined checkout flow and managed complex inventory states using MongoDB, focusing on minimizing database latency.

Education

Nobo Jibon Polytechnic Institute

Diploma in Computer Science

Satkhira, Bangladesh
